Regarding the Microsoft request to keep the content of any future depositions from being released to the news media: This is a bad idea, and would only let Microsoft continue to get away with lying and evasion.

Since this case has ramifications for the entire computer and software industry, and for the millions of us who use computers each and every day both at work and at home, I truly believe that we, the general public, have a right to be informed of what both sides in this case are saying.

Thank you.

Respectfully,
